

CARPET GEM product line

CHEX

ODOR KILLER

Appearance Clear Liquid
 Odor Herbal
 pH (conc.) 6.5 - 7.5
 Solubility Complete

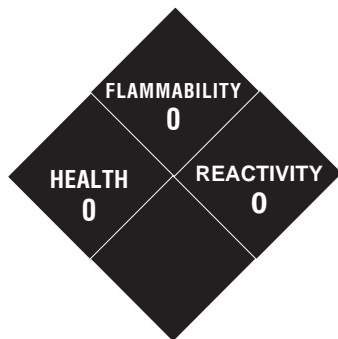

Biodegradable

Manufactured to
ISO 9002
Specifications

NFPA 704 Hazard Rating:

4=Extreme, 3=High, 2=Moderate
 1=Slight, 0=Minimal

Rating for this product:

Health 0 None
 Fire 0 Will Not Burn
 Reactivity ... 0 Stable

EMERGENCY: (800) 535-5053

enzyme spot remover for pet stains	
Teflon	G1502
ready-to-use carpet protectant	

D E S C R I P T I O N

- CHEX eliminates odors by destroying germs and not just by masking them. Also eliminates carpet static.
- Use it on carpets, upholstery, drapes, floors and anywhere cigarette, pet, mildew, food, smoke, urine, or other substances cause objectionable odors.
- CHEX works great for cleaning floors with a mop and bucket. Use it with regular cleaners to eliminate undesirable odors. Apply CHEX full-strength for strong odors in garbage containers and musty rooms.
- It is an outstanding room freshener when diluted and fogged or sprayed. It leaves a fresh herbal scent and it's **biodegradable**, too.
- CHEX works with your carpet shampoo or extraction cleaning solution for added odor control. Spray, mop or wipe with CHEX on any surface not harmed by water.

D I R E C T I O N S

Always test colorfastness in an inconspicuous area first. Do not use if your white test cloth is stained from carpet dyes.

Carpet Shampooing or Extraction Cleaning:

Mix 1 oz. of CHEX to each gallon of cleaning solution.

General Odor Control:

Mix 1 part of CHEX with 3 parts of water and spray the carpet with a trigger sprayer. For extreme odors, apply full strength.

Room Deodorizing:

Mix 1 part CHEX with 10 parts of water in a trigger sprayer. Using a fine mist, spray lightly from the center of the room moving towards the corners.

Floor Cleaning:

Mix 2 ounces of CHEX per gallon of water and mop the floor as usual.

A Word About Vacuuming

Basic carpet care begins with vacuuming. Unlike resilient or hard floors, carpet hides dirt, and as a result, is often not cleaned as frequently, or as well. Dirt, grit and soil can accumulate around the base of the carpet fibers, grinding them away. This grinding action leads to excessive wear in traffic lanes, greatly shortening the life of the carpet.

Your first line of defense against soil buildup will, therefore, always be vacuuming. Just as dust mopping resilient and hard floors removes surface soil before it becomes a maintenance problem, vacuuming removes much of the loose dirt and grit from the surface of carpet before it becomes imbedded at the base of the fibers.

It is not always necessary to vacuum all carpeting every day. Some light traffic areas can be vacuumed as needed. Unnecessary vacuuming wastes time, labor and money.

And finally, use your most powerful vacuums for your dirtiest carpet and save the lighter, low power vacuums for the low traffic areas.

C A U T I O N

EYE IRRITANT - Contains Isopropyl alcohol. Avoid contact with eyes.

EYES: Flush with water for 20 minutes. Seek medical attention.

SKIN: Wash with water if irritation persists, seek medical attention.

INGESTION: Induce vomiting. Give large quantities of water. Seek medical attention.

MATERIAL SAFETY DATA SHEET

EMERGENCY: (800) 535-5053

Product Name: Chex

Product Code: G2501

Proper Shipping Name: Not applicable. This is a non-regulated material.

Manufactured by: EXSL/Ultra Labs, Inc.

Effective Date: 7/12/01

Supersedes: 5/14/98

HAZARDOUS INGREDIENTS

	CAS#	PCNT%	TWA	STEL	SARA III	PROP 65	Carcinogen
Isopropyl Alcohol	67-63-0	8.00	983 mg/m ³	1,230 mg/m ³	No	No	No

PHYSICAL DATA

Boiling Point: 202° F

Specific Gravity: 0.990

Appearance & Odor: Clear Liquid, Herbal Fragrance

pH: (Conc.) 6.5-7.5

Evaporation Rate: 1

Reactivity in Water: None

Viscosity: 5 cps

Solubility: Complete

Melting Point: Not App.

Vapor Pressure: Not Avail.

Vapor Density: Not Avail.

Volatiles: 89%

FIRE & EXPLOSION DATA

Health: 0 ... None

Fire: 0 ... Will Not Burn

Reactivity: 0 ... Stable

NFPA 704 Hazard Rating

4 = Extreme, 3 = High, 2 = Moderate

1 = Slight, 0 = Minimal

Flash Point: None (Cleveland Open Cup)

Flammability Levels (LEL/UEL): Not App.

Extinguishing Media: This product is not combustible. Use water spray, foam, carbon dioxide, or dry chemical.

Fire & Explosion Hazard: ... None

Conditions to Avoid: Open flames, welding arcs or other high temperature sources that induce thermal decomposition, which produce toxic fumes.

REACTIVITY DATA

Materials to Avoid: None.

Stability: Stable

Hazardous Decomposition Products: None

Hazardous Polymerization: Will not occur

HEALTH HAZARDS

Eye Contact: Causes moderate to severe irritation. Prolonged and repeated contact can cause redness and tearing.

Skin Contact: May cause dryness with prolonged contact.

Ingestion: Can cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Inhalation: Spray or mist can be irritating to the upper respiratory tract.

FIRST AID

Eyes: Flush out immediately for at least 20 minutes with running water and seek medical attention. Washing eyes within one minute is essential to minimizing eye damage. Hold eyelids apart to ensure flushing of the entire surface.

Skin: Wash with water. If irritation persists, seek medical attention.

Ingestion: Never give anything to an unconscious person. If swallowed, induce vomiting. Give large quantities of water or milk. If vomiting occurs, keep airways clear. Seek medical attention.

Inhalation: Move person to fresh air and away from exposure. If breathing is difficult, administer oxygen and seek medical attention. Give artificial respiration if victim is not breathing.

SPILL OR LEAK PROCEDURES

Steps to Contain:

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop leaks if you can do it without risk. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (rubber boots and gloves). Contain spills with dry earth, sand or other non-combustible material and transfer to containers. Sweep up powder spills and transfer to containers. DO NOT GET WATER INSIDE CONTAINERS.

Recommended Waste Disposal Method:

The materials resulting from the clean up may be hazardous waste and, therefore, subject to specific regulations. Package, store, transport, and dispose all clean-up materials and any contaminated equipment in accordance with all applicable federal, state, and local health environmental regulations. Shipments of waste materials are subject to manifesting requirements per applicable regulations. Ensure that all responsible federal, state, and local agencies receive proper notification of spills and disposal methods.

SPECIAL PROTECTION & PRECAUTIONS

Respiratory: None under normal use conditions.

Eye: None under normal use conditions.

Storage: Keep in a cool, dry place.

Clothing: None under normal use conditions.

Comments: None under normal use conditions.

Handling: Do not stack or palletize over three high.

USER'S RESPONSIBILITY

It is the user's responsibility to provide a safe workplace. He or she should consider the health hazard and safety information contained herein as a guide and take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by use of this material. It is the responsibility of the user to comply with all applicable federal, state, and local laws and regulations.
